

# ENGLAND SHARPLY REMINDED

## UNITED STATES COMPLAINS OF MEXICAN POLICY

### GREAT BRITAIN IS NOT IN SYMPATHY WITH UNCLE SAM IN MEXICO

France Sends a Warship to Protect Her Interests and Japan Officially Declares She Will Not Be Represented by Any Vessel in the Troubled Zone.

(By Associated Press.)

WASHINGTON, Oct. 22.—Diplomatic exchanges between Ambassador Page and the British foreign office regarding Great Britain's attitude toward Mexico are expected to continue.

Officials here are concerned at the indications that Sir Lionel Carden, British minister in Mexico, does not sympathize with the American policy toward Huerta. The same officials here said the United States is not seeking European support yet, and did not desire any factor interjected from Europe that might impede the United States.

PARIS, Oct. 22.—The French government has ordered the armored cruiser Conde to proceed immediately to the Mexico coast to protect French interests.

TOKIO, Oct. 22.—The Japanese foreign office announces no Japanese warships will be sent to Mexico.

### TONOPAH HIGH SCHOOL EQUALS RENO HIGH—IS CONSIDERED THE BEST OF CLASS IN STATE

The next district institute for the teachers of southern Nevada will be held in Goldfield November 24, 25 and 26. These institutes are conducted every two years and attendance is made compulsory on all teachers with the exception of those who are excused by the superintendent of public instruction for good and sufficient reason, which usually means serious illness. The last previous gathering was in Tonopah two years ago.

B. G. Bleasdale, district deputy, came here yesterday, accompanied by Walter Clayton, superintendent of the Goldfield schools, and both gentlemen met with the Tonopah teachers last night. The latter assured a most cordial reception on the part of the Goldfield faculty, and he hoped everybody would find it convenient to take advantage of the invitation. The sessions will be held in the Goldfield high school assembly room.

Mr. Bleasdale also spoke of the advantages of the institute, and closed with a compliment to the management of the local school and to the trustees, whose direction made such a perfect building possible. The appointments he described as the best and the standard was praised as on a par with the Reno high school, which stands for the best in the educational line in Nevada.

Mr. Bleasdale also predicted a continuance of the remarkable growth of Tonopah's schools, and said he hoped it would not be long before Tonopah would require greater facilities. In a diplomatic way he referred to the fact that the high school in former years had not reached the standard, and congratulated the trustees and Superintendent Smith on the great advances noted in students.

Incidentally it may be mentioned that the enrollment of the local school reached the round number of 520 pupils yesterday, when four new

### EARNS \$4.50 WEEK STEALS OVERCOAT

(By Associated Press.)

LOS ANGELES, Oct. 22.—Mollie McWilliams, 15, was made free today after having been arrested for stealing a coat to keep warm. Investigation showed she had been supporting an invalid mother and a younger sister on \$4.50 a week. She stole after she lost her job.

### PRINCETON GETS NEW BUILDING FOR GRADUATES

FORMER PRESIDENT TAFT RENDERS EULOGY OF GROVER CLEVELAND.

(By Associated Press.) PRINCETON, Oct. 22.—Princeton university's graduate college and the Grover Cleveland memorial tower were dedicated today in the presence of a distinguished party of learned men of Europe and America.

Former President Taft delivered a memorial address on Cleveland. The purpose of the college is to house graduate students in a body.

Location notices on sale at the Bonanza office.

### BULLION BY TON SHIPPED OUT BY TONOPAH MINES

BELMONT AND EXTENSION SEND OUT BARS FROM REGULAR CLEAN-UP.

The semi-monthly shipment of bullion from the Belmont went out this morning by Wells Fargo. It consisted of 81 bars, estimated to contain 166,171 ounces, valued at \$128,000. This is about an average shipment, as the last that went out aggregated 87 bars of a value of \$137,000.

Last Saturday the Tonopah Extension shipped out 16 bars containing 3000 pounds and valued at \$22,000. This was their semi-monthly clean-up.

### NEW LAND OFFICE WILL OPEN IN ELKO JAN. 1

CARSON OFFICE CEASES DOING BUSINESS FOR ELKO AT END OF YEAR.

Elko's new United States land office will be opened for business on January 1, 1914, and the territory embraced in the new district created by act of congress approved October 3, 1913, will take in the eastern half of Nevada, says the Elko Free Press.

Just where the new land office will be situated when opened has not been announced, but it was said today that the move for a new federal building would be pushed. As soon as the federal building is erected all the government offices will be under one roof.

Clay Tallman, commissioner of the general land office at Washington, has issued orders for the register and receiver at Carson City to cease transacting any business for the new district after December 31 of the present year.

There is an enormous amount of additional work involved in the opening of the new Elko land office for the reason that every entry on the records at Carson City will have to be gone over, item by item, and all entries embraced in the new district will have to be copied into new record books. No one realizes the number of such long-winded records that have been made since the land office was opened at Carson City years ago. But the making up of the new records from the old ones at Carson City will in no way interfere with the work of the new office. The work will go on just as though the records had been here all the time.

The creation of the Elko land office will mean the naming of a receiver and also a register, as well as the necessary clerks, the number of which at this time is unknown. The two heads of the land office will be fat political plums over which there will be a lively contest. So far no one is making an open fight for either of the places, but it is said several of the ambitious ones are not letting the grass grow under their feet.

### PRINCETON GETS NEW BUILDING FOR GRADUATES

FORMER PRESIDENT TAFT RENDERS EULOGY OF GROVER CLEVELAND.

(By Associated Press.) PRINCETON, Oct. 22.—Princeton university's graduate college and the Grover Cleveland memorial tower were dedicated today in the presence of a distinguished party of learned men of Europe and America.

Former President Taft delivered a memorial address on Cleveland. The purpose of the college is to house graduate students in a body.

### KILLED INSIDE OF SMOKESTACK OF SMELTER AT ELY

GASOLINE EXPLOSION LITERALLY COOKS WORKMEN WHO WERE RELINING CHIMNEY.

ELY, Oct. 22.—Two men were burned to death and four others received minor injuries at McGill today when an explosion occurred in the smokestack of the Steptoe smelter. The men were engaged in lining the interior of a new smokestack with an acid-resisting compound. A hose connecting a gasoline torch which they were using became disconnected and the explosion followed. A. A. Ellis and a Greek laborer were on a platform in the stack twenty-five feet from the ground and were literally cooked to death. Although the other men were within the stack, they escaped with slight injuries.

### THROTTLED BY MONOPOLY OF SMELTING

D. W. BURTON SAYS REVISION OF MINING LAWS IS A CRYING NEED.

PHILADELPHIA, Oct. 22.—"The crying need of the mining industry is a complete revision of the mining laws," declared Dr. David W. Burton of Denver, president of the American Mining congress, in his annual address here last night. He referred to the so-called excise law as the most archaic that ever was placed upon the statute books. He inveighed against the recently passed laws in many western states, which he declared placed new burdens upon mining property, but pleaded for the extension of workmen's compensation acts to all states.

"In every state in which compensation laws have been passed so far as I am able to learn," said the speaker, "the results have been extremely gratifying. The cost to the employer has been no greater than before, while the sufferers get from two to ten times as much as they did under the antiquated laws in force in most states."

Dr. Burton declared that the mine owner and miner of the west are being throttled by a gigantic smelting monopoly, which he declared not only dictates the price to be paid for ore, but in some instances how much ore may be produced.

"Wildcat" promotion also was scored by the speaker, who concluded his address with the statement that the greatest service the mining congress has accomplished has been the assistance given towards the creation of a federal bureau of mines.

### FELIX DIAZ IS BACK TO RUN FOR PRESIDENT

VERA CRUZ, Oct. 22.—General Felix Diaz landed here today from the steamship Corcovado without hindrance. He was cheered by a large crowd of the working class. An agent of the Mexican government went aboard the steamer and tried to induce Diaz to continue his voyage to Tampico, but the latter refused. Diaz said he had not abandoned his presidential candidacy, even though competing with the Huerta ticket.

### TWO MEN KILLED ON WINGFIELD FARM AT LASSEN

MASONS CRUSHED BENEATH HEAVY CEMENT WORK WHEN IT GIVES WAY.

SUSANVILLE, Cal., Oct. 22.—An inquest was held over the remains of Al White and Edward Thompson, the two men who were instantly killed on George Wingfield's ranch near this city Saturday. After investigating the circumstances Coroner Philbrook's jury rendered a verdict of accidental death.

The men were at work on some masonry on the Meadowbrook ranch. The heavy mass gave way and came tumbling down several feet upon them, crushing the life out of both instantly. Al White was 39 years of age and Ed Thompson was 27 years old. They were well known in this section of the state.

### GIRL CUTS SELF IN THE THROAT WILL RECOVER

VICTIM INSISTS THAT SHE TRIED TO END HER OWN EXISTENCE.

Blondie LeBlanc, employed on the night shift at the Halifax mine, is in jail as the indirect sequel to a cutting affray that occurred this afternoon at 1:30 o'clock.

At that time Chief of Police Evans was called to a house opposite the Phoenix hotel in the gulch, where he found a girl of that quarter, who goes by the name of Laura, bleeding from an ugly wound in the throat. She was drunk and her only companion was LeBlanc. The latter was in a fighting mood and the girl was bleeding profusely from a gash in the throat that she claimed was self-inflicted. This statement could not be corroborated and the chief suspected that she had gotten into an altercation with LeBlanc and sustained the injuries in the struggle.

However, Laura insisted that "the next time I will go it good," and for lack of evidence the matter had to be passed up. Dr. Masters sewed up the wound, and with care the girl may recover.

After the excitement over this brawl had subsided LeBlanc met Mrs. Frank Myers and began abusing her and making threats. Thereupon Chief Evans took him in and he will have a hearing before Justice Dunsen at 4 o'clock this afternoon.

Laura, who says her name is Randall, at a late hour this afternoon told Chief Evans that LeBlanc tried to cut her throat and that she did not attempt suicide.

### BONES OF COLUMBUS TO BE DISPLAYED

(By Associated Press.) SANTO DOMINGO, Oct. 22.—The bones of Christopher Columbus, from the cathedral here, will be sent to the Panama exposition as part of the Dominican government's exhibit, according to an announcement today.

### LETTERS MUST BE SIGNED.

The Bonanza is in receipt of a communication bearing on the curfew law and, although the sentiments coincide with those of this paper, they cannot be used without knowing the name of the writer. The name is not for publication, but as an evidence of good faith.

If it's of exceptional value at the price, it's sure to be advertised in the Bonanza, else the merchant would be hopelessly unprogressive.

### LONDON EDITORS QUICK TO SEE GRAVE ERROR RECOGNIZING HUERTA

Just Awakening to the Possibility of a Clash Between the Two Countries and Demand That Misunderstanding Shall Be Dispelled.

(By Associated Press.)

LONDON, Oct. 22.—London newspapers are just awakening to the possibility of embroilment between the United States and Great Britain in the Mexican situation. Heretofore warnings that emanated from Washington and New York correspondents on the views of the British government, as made known in the United States by Associated Press, were not before published.

The Pall Mall Gazette says today: "There evidently is a grave misunderstanding between this country and the United States with regard to the Mexican crisis which should be removed. There are elements of danger in the situation which may arouse strong feeling on both sides of the Atlantic."

The Globe says: "It cannot be denied that President Wilson has some grounds for complaint against the British policy in Mexico." The Globe considers the British foreign office made a grave mistake in its hasty recognition of Huerta.

VERA CRUZ, Oct. 22.—The German protected cruiser Hertha arrived here today.

### NEWLANDS HAS CHILLY GREETING AT THE DEPOT

NO BRASS BAND TO GREET THE SENIOR SENATOR ON ARRIVAL IN TONOPAH.

Senator Newlands came in this morning from Reno. If he expected to find an outpouring of the masses at the railroad station he must have been filled with chagrin, for the only one who took the trouble to motor down was Attorney H. R. Cooke of the democratic county central committee.

One of the first persons to extend greetings to Mr. Newlands was Matt Rosenthal, Key Pittman's first lieutenant, now under indictment by a federal grand jury for enticing girls to Goldfield under pretext of engaging them for a music hall.

### WOODMEN MEET TO REORGANIZE

NEW MEMBERS WILL BE ADMITTED ON PAYMENT OF A NOMINAL FEE.

The charter of the local camp of Woodmen of the World will be re-opened and new members will be taken in at the very nominal fee of \$5, including the medical examination.

This is one of the things that was decided upon last night at a conference between the Tonopah Woodmen and District Deputy Morford, who is here to reorganize and build up the local camp of the order. The conference was held in Epstein's brokerage office.

The Woodmen of the World is admittedly one of the wealthiest fraternities in the world. It has a reserve of practically \$5,000,000, invested in high-class securities, which reserve fund is increasing at the rate of about \$70,000 a month. The Pacific Jurisdiction, W. O. W., does business only in nine states—California, Colorado, Utah, Idaho, Montana, Nevada, Oregon, Washington and Wyoming. These states probably comprise the healthiest territory in the United States, and this accounts for the extremely low death rate, which in 1912 was only eight in each 1000 members.

No trouble to get anything in the world with a Bonanza want ad.

### STEAM SHOVEL BUSY REMOVING PILE OF ROCK

RAILROAD USING PILE OF WASTE ROCK OPPOSITE THE DEPOT.

The T. & G. railroad has installed a steam shovel opposite the depot on the dump of the Tonopah Extension, which is being loaded directly on to flat cars to be used for ballasting the line between here and Goldfield, particularly around Klondike Wells, where the washout of a month ago cut a wide swath. The shovel stands right into the dump and the loading is accomplished with as little loss of time as the performance at Culebra, which holds the world's steam shovel record.

When Engineer Cattermole gets through with this job he says the tracks will be impervious to the heaviest rains that may visit this part of the desert.

### RANCHER SHOTS AND KILLS MAN IN HUMBOLDT

FATAL AFFRAY NORTH OF WINNEMUCCA WITH MEAGER DETAILS.

WINNEMUCCA, Oct. 22.—Sabe Choat, proprietor of the Virgin Station, about 70 miles north of Winnemucca, was shot and killed yesterday morning about 9 o'clock, according to reports received here today. Lester Howard is said to have done the shooting.

It is reported that Howard and Choat quarreled over ranch land claimed by both. Sheriff Lamb, District Attorney Callahan and Dr. Mangum left Winnemucca at noon today for the scene of the shooting.

### KILLED BIG RATTLESNAKE.

D. R. Finlayson, superintendent of the Big Four mill, last Saturday killed a rattlesnake fully three feet long, says the Manhattan Post. The snake was as large around as a man's arm and was the biggest ever killed in this section. The fact that rattlesnakes are still out at this season leads many to believe that it is a sign of a mild winter.
